

**THERMACOM**

## Thermal Imaging

### THERMACOM

#### FLIR THERMAL IMAGING FOR:

- ELECTRICAL INSTALLATIONS
- MECHANICAL EQUIPMENT
- BUILDING & CONSTRUCTION
- ROOFING & INSULATION
- INSURANCE ASSESSMENT
- QUALITY ASSURANCE

### THERMACOM

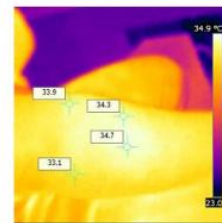

Address:  
98 Macgillivray Road  
Kyalami  
Midrand

Phone: 011 705 1566  
Fax: 086 619 2140  
Cell: 083 250 0392  
E-mail: [compucoms@iafrica.com](mailto:compucoms@iafrica.com)

#### NON-OBSSTRUCTIVE, NON-INTRUSIVE, 100% INTUITIVE

Thermal imaging / Thermography is the ability to find out what's happening inside; without having to turn it off, open it, or stop it producing for you. Utilising the latest IR camera technology **THERMACOM** can capture images with pinpoint and precise temperature measurements, graphically identifying areas that are, or may become, a concern.

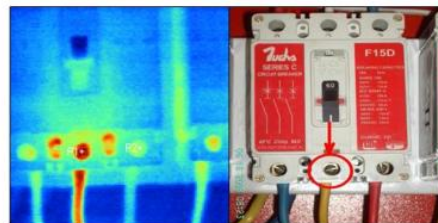

#### IDENTIFY. SEE. WHERE.

For electrical and mechanical processing equipment, fluids, switches & connections, building structures, insulations, insurance risk assessment, and quality assurance.

A thermagram will tell you what you need to know; determine what's happening... **INSIDE**.

Combining thermal and visual images with clear, particular, and to-the-point reporting **THERMACOM** will better equip you to make informed decisions; to tell you **WHAT'S HOT**. And **WHAT'S NOT**.

To enable you to take direct and focussed action on problem areas or equipment. No fuss, **NO GUESSWORK**.

- ▶ **BEFORE IT'S A PROBLEM.**
- ▶ **BEFORE IT CREATES DOWNTIME.**
- ▶ **BEFORE IT COSTS YOU MONEY.**
